For Immediate Release:

Mariners Centre Expansion Board Hosts Community Engagement Sessions

Yarmouth, N.S. – Nov. 27, 2023: The Mariners Centre Expansion Board (MCEB) invites members of the community to attend an upcoming engagement session to learn more about the facility's design, which will create a new, campus-style hub for health, wellness and entertainment in our community.

In August, the MCEB approved a concept design after reviewing numerous configurations and options. This fall, the board approved an architectural floor plan developed by Ventin Group Architects. With the approval, the project moves closer to its final design before a construction tender is issued next spring.

Representatives of the MCEB invite the community to participate in an upcoming engagement session to learn more about the design and provide feedback on the floor plans.
